

BRUCE R. SHERBET
DALLAS COUNTY ELECTIONS ADMINISTRATOR

October 10, 2006

To Whom It May Concern:

Meisse Productions has more than proven to be a solid, dependable and technologically advanced company. Their Voter Training Kiosks are the most innovative and beneficial products available to the elections industry. As the Elections Director of Dallas County, I can speak on behalf of the department and genuinely voice our pleasure with both the products and the company. They have both surpassed our expectations as well as our needs.

The core components of this kiosk are of outstanding quality. The scriptwriting is superior and written in a manner that is straightforward and easy to understand. Gunther worked closely with myself and the Secretary of State office to ensure that all information was completely accurate and compliant with election laws and processes. The machine itself is very user friendly on both levels of operation and setup. Poll workers, elections staff and voters included have raved about its simplicity in these areas. The programs are quick and simple to update.

We have found the applications of this kiosk to be endless. Meisse Productions is very proficient in customizing the kiosk to your specific needs. Dallas County has incorporated an Early Voting chip in addition to the standard program to educate citizens during early voting. This not only sends a clear and consistent message to our voters but as an added bonus, frees up our poll workers to support those needing assistance during the voting process. In addition, our program required multi-lingual capacity to accommodate our non-English speaking voters. Gunther was more than willing and beyond capable to facilitate this request. His professionalism and talent truly came through in this facet of our program.

As a whole, this Voter Training Kiosk is the most valuable and beneficial tool in our voter education program. The Dallas County Elections Department feels this is the best way to put HAVA funding dollars to work. It is our responsibility to the voters to make sure that they are properly educated on all aspects of voting. Meisse Productions has developed and successfully executed a product that does just that. It is my recommendation for any county across the U.S. to seriously consider this as an integral component to their voter education program.

Respectfully,

A handwritten signature in blue ink that reads "Bruce Sherbet".
